Who we are

SIGACCESS is a special interest group of ACM. The SIGACCESS Newsletter is published regularly in January, June, and September. We encourage a wide variety of contributions, such as: letters to the editor, technical papers, short reports, reviews of papers of products, abstracts, book reviews, conference reports and/or announcements, interesting web page URLs, local activity reports, etc. Actually, we solicit almost anything of interest to our readers.

Material may be reproduced from the Newsletter for non-commercial use with credit to the author and SIGACCESS. Deadlines are one month before publication dates. Submissions may be sent as hard copy (paper), but machine-readable files are preferred. Postscript or PDF files may be used if layout is important, but word-processor files, text files, or e-mail are also acceptable. Ask the editor if in doubt.

Finally, you may publish your work here before submitting it elsewhere. We are a very informal forum for sharing ideas with others who have common interests.

Anyone interested in editing a special issue on an appropriate topic should contact the editor.

Accessibility and Computing

The Newsletter of ACM SIGACCESS

NUMBER 87, January 2007

A note from the Editor

Dear SIGACCESS member:

Welcome to another on-line issue of the SIGACCESS Newsletter. In this issue we have an article summarising the contributions made by the ERCIM UI4All Working Group. This group has been very active promoting the concept of Universal Access within Europe. The working group closed last year and in this issue Constantine Stephanidis gives his thoughts on what it has achieved.

Following their success in earlier issues, there are several more SIGACCESS member profiles here. These profiles give an excellent indication of the breadth of interests covered by this SIG.

Finally, the call for this year's ASSETS conference is included. For more details, please visit the ASSETS web-site at:

<http://www.acm.org/sigaccess/assets07/>
